

Klee Odom + Klee

Architecture + Planning + Preservation

Our Mission

Firm Profile

Our mission is to enhance the quality of life through better design; realizing aspirations and exceeding expectations.

Description

At **KO+K** we enjoy working on a variety of project types; from small offices to large stadiums, from commercial interiors to single family homes, from historic preservation to campus master planning. Each project offers opportunities to provide excellent service and to create meaningful spaces and places. Whatever the project, we believe these principles are paramount:

Build Green

We are the stewards of our environment. We must embrace this responsibility.

Build Strong

Building strong buildings means they last longer, cost less to maintain and enjoy reduced insurance rates.

Anticipate the Future

Like the people that use them, buildings and places change over time.
Plan for it.

Be Clear and Honest

Our clients rely upon us to guide them through an often complex and sometimes frustrating process. Communication and trust are keys to success.

Management Approach

KO+K uses a simple formula for success:

Careful Planning + Exemplary Service = Successful Project

Our process recognizes that excellent design can only be achieved through collaboration between everyone involved. We look forward to and encourage full, active dialog between all parties and take advantage of technologies to expedite and ensure communication in the decision making process.

KO+K is a woman-owned small business enterprise.

Klee Odom + Klee

Architecture + Planning + Preservation

Zachary A. Klee

In his fourteen years of professional architectural service, Mr. Klee has amassed a wide range of experience in project design, management and construction administration. The scale and complexity of the projects Mr. Klee has been responsible for range from simple residential additions and renovations, to historic rehabilitation and adaptive reuse, to the design and coordination of significant alterations and improvements at the U.S. Navy Marine Corps Memorial Stadium.

Mr. Klee's professional objective is to provide value added services to each and every client, regardless of project type, scale or complexity. Rational design, clear communication, honesty and integrity are hallmarks of the services provided by Mr. Klee and **Klee Odom + Klee**.

Prior experience includes responsibilities as Senior Project Architect with **O'Brien Travis Jaccard** of Washington, DC and Staff Architect with **Alt Breeding Schwarz Architects** of Annapolis, Maryland.

Klee Odom + Klee

Architecture + Planning + Preservation

Donna J. Klee

Ms. Klee's fourteen years of professional architectural experience includes historic preservation studies, high level security projects, large scale planning and educational facilities. Her responsibilities include project manager, project designer and managing partner. Ms. Klee's broad knowledge of all aspects of the architectural process allow her to design, manage, and administer large scale projects seamlessly.

A hallmark of Ms. Klee's architectural skill is her ability to listen carefully to a client's needs and expectations. This allows for clear communication and the integration of the client's needs with a functional well designed space.

Ms. Klee's prior experience includes **Department of Homeland Security, United States Secret Service**, Washington, DC, Senior Project Architect/Associate at **Charles E Anthony Architects**, Annapolis, MD and Associate Professor at **Anne Arundel County Community College** in Maryland.
